# PRINCIPAL'S MESSAGE

Dear Students! Welcome to Darbar College. Darbar College, an institution of academic excellence and achievement, was established in 2004. It is amongst one of the finest colleges within the Rani Channamma University. At Darbar College, we are imparting higher education to young men & women in India, which is a very substantial, potent and conscientious task. We all know that Women are a great human resource and the role of women in the society is critical for development of a nation. To empower the young minds is to increase their control over the decisions that affect their lives both within and outside the household. Through their empowerment men & women gain greater share of control over resources and it gives them the power of decision making in the home, community, society and nation.

I want that our students should be imparted an all round education so that they become multidimensional rather than uni-dimensional. In my view, acquiring information is no longer the main focus of education; instead the main aim of education is to build the powers of human mind and spirit. We believe in providing our students an environment, rich in knowledge and supportive for their extracurricular interests. We aim to evaluate our students on the basis of their physical, mental, social, emotional and intellectual development.

I feel proud to acknowledge the contribution of highly qualified, dynamic and multi-talented faculty, non teaching staff and my students for this. Our teachers work hard throughout the year with the students to provide them high quality educational experience in the form of debates, group discussions, workshops, symposia, seminars and cultural competitions. Eminent personalities are invited from all walks of life to address our students and expose them to new ideas and thoughts. I strongly believe that

“All odds, all challenges and all handicaps of life can be overcome with strong determination, persistent hard work, insurmountable patience and unshakeable tenacity” My best wishes to the new students entering Darbar College.
